## Carrier Objective

To secure a challenging position in a reputable organization where I can effectively utilize my technical skills programming and web development, contribute to impactful projects, and continue to grow professionally. I aim to apply my problem-solving abilities, passion for learning, and commitment to innovation to deliver meaningful solutions and add value to the team and society.

## Education

**Bachelor of Technology in Computer Science Engineering - CGPA: 8.40/10** June 2022 - Present

Narula Institute of Technology, Kolkata, India

Coursework: Web Development, User Interface Design, and Software Engineering.

**Senior Secondary School (CBSE) - Percentage: 88%** 2022

Bradford International School, Patna, Bihar, India

**Secondary School (CBSE) - Percentage: 90%** 2020

Infant Jesus School, Patna, Bihar, India

## Skills

### Technical Skills:

- Programming Languages:** Java, C++
- Web Technologies:** HTML, CSS, JavaScript, React.js
- Databases:** MySQL, MongoDB
- Tools & Frameworks:** Git, GitHub, Visual Studio Code

**Soft Skills:** Communication, Critical Thinking, Leadership, Problem-Solving, and Teamwork.

## Projects

### Weather Forecast Web Application

• **Description:** Developed an interactive web application to provide real-time weather forecasts with dynamic visuals and responsive design.

• **Key Features:**

- Real-time weather updates for selected locations.
- Responsive design using Tailwind CSS for optimal display across devices.
- API integration to fetch and display weather data dynamically.
- Asynchronous data handling and DOM manipulation using JavaScript.

• **Tech Stack:** React.js, Tailwind CSS, HTML, JavaScript

• **Source Code:** [https://github.com/codesrishav/WeatherForecast]

## Certifications

### Web Development Certification – GEMS

february 2025

- Technologies Used: HTML, CSS, JavaScript
- Key Learnings: Built responsive and interactive web pages, implemented modern UI/UX principles, and enhanced website functionality using JavaScript.

### Internet Of things – Ardient Academy

february 2024

- Organized by Narula institute of technology

### Object-Oriented Data Structures in C++ – Coursera

january 2024

- Organized by university of ILLION

## Achievements

- Participated in **Smart India Hackathon (SIH) 2024** as a finalist representing Narula Institute of Technology.
- Completed the **DSA with Java course by Apna College**, gaining hands-on experience with topics like recursion, dynamic programming, and graphs.
